Colorado Aviation Business Association (CABA) Scholarship Winner Earns Type Rating and Promotion

Denver, CO – June 4, 2013 – The Colorado Aviation Business Association (CABA) announces that Mr. Jeremy Knight has taken a Charter Pilot position with a local operator following the completion of his Citation 500 Series Type Rating. Mr. Knight received a CABA 2012 Type Rating Scholarship sponsored by CAE SimuFlite, Dallas TX, in support of CABA. Previously a flight coordinator with the same charter company, Mr. Knight earned the type rating at the CAE training facility located at Dallas/Fort Worth International Airport.

CABA presented four scholarship awards totaling more than \$22,000 in 2012. The CABA Scholarships, established and first presented in 2011, are awarded to help support selected students in their pursuit of a career in aviation. All aviation-related career tracks are considered eligible including, but not limited to: pilot, aircraft maintenance, airport operations, and management. The CABA Education and Outreach Committee evaluates and selects recipients based on their demonstrated dedication to an aviation-related career, scholastic transcripts, financial need, and recommendations from professional and/or faculty mentors.

“The CABA scholarship has absolutely been a turning point - never in my wildest dreams did I imagine piloting jets this early in my career. The award gave me a tremendous advantage since I could be brought on as a new pilot at a fraction of the normal cost,” said Mr. Knight. “I would like to personally extend my appreciation to CABA, CAE SimuFlite for sponsoring the course, the expert instructors at the CAE training facility, and all of the industry peers and mentors who have supported me from day one. It’s been a wild ride, and I know it’s only just begun,” he concluded.

Note to Editors:

Founded in 1994, the mission of the Colorado Aviation Business Association (CABA) is to promote the value of business and general aviation across the state of Colorado. CABA acts to collectively address and respond to issues impacting Colorado Airports, including safety and operational effectiveness; to educate the general public about all aviation activities in the state; and to preserve the state's airport related businesses as valuable economic assets to the community at large.

CAE is a global leader in modeling, simulation and training for civil aviation and defense. The company employs approximately 8,000 people at more than 100 sites and training locations in approximately 30 countries. CAE offers civil aviation, military, and helicopter training services and trains approximately 100,000 crewmembers yearly. In addition, the CAE Oxford Aviation Academy offers training to aspiring pilot cadets in 11 CAE-operated flight schools. The company applies simulation expertise and operational experience to help customers enhance safety, improve efficiency, maintain readiness and solve challenging problems. www.cae.com
